

Hockey Dasher Boards For Sale

Winnipeg Enterprises Corporation operates the Winnipeg Arena located in Winnipeg, Manitoba, Canada and is selling our hockey dasherboard system and aluminium support system for glass/acrylic.

The entire system consists of 68 sections of dasherboards to accommodate a 200' x 85' ice surface. This dasherboard system consists of one 16' (2 sections at 8') outside swinging Zamboni gate located in right corner when standing on ice looking at end. One corner Referees gate, four players box gates and two penalty box gates. There are 66 aluminium glass supports that can accommodate 6'-8' glass or acrylic and there are 62 aluminium supports that can accommodate 4'-6' glass or acrylic. Glass not available with dasherboards.

It is constructed of welded galvanized angle iron with 1/2" stay white covering.

This system was installed in 1976 and used for the NHL Winnipeg Jets. Currently it is used by the AHL Manitoba Moose. The system has been well maintained and is in good condition.

It has a floor anchor system allows for some movement. Anchors also allow for easy facility conversions.

The dashboards will be available in November of 2004.

Interested parties can arrange a site visit and removal demonstration by contacting Graham Hunter at (204) 982-5404 or e-mail: ghunter@wpgenterprises.ca
